

## From Vision to Outcomes

An outcome is a desired result. Identifying specific outcomes will let you know how well you are doing on your way to reaching your vision. One very simple way to identify outcomes is to look at the individual components of your Action Vision.

Consider the attached Action Vision from Fairsite Elementary School in Galt. The following visual images could be translated to desired outcomes:

*Image:*

A community with clean and peaceful parks and streets.

Outcome:

The community will be clean and well cared for.

*Image:*

Youth interacting with each other and with adults.

Outcome:

Youth will trust and respect each other and adults in the community.

*Image:*

A community with a parent and children center

Outcome:

Young people will have access to music and performing arts.

*Image:*

Daycare center.

Outcome:

Youth will provide leadership and mentoring for younger children.

The purpose of identifying outcomes is to focus specifically on what you are trying to achieve so you can:

- ❖ Focus on and accomplish your goals
- ❖ Explore the issues that relates back to your goals.
- ❖ Demonstrate success
- ❖ Learn from what you've done
